# introduction

This document is the current version of the Event Calendar of the Solar Decathlon Europe 2021 (in 2022). It contains the General Calendar, the Tasks & Tests Calendar and Detailed Daily Schedules. **Important:** Due to the global corona pandemic, the event period is postponed. The Event will take place from May 19<sup>th</sup> to July 3<sup>rd</sup>, 2022.

The information included in this document is not yet finalised and is subject to change. It is important that the Teams continue to check for updated drafts on the SDE21/22 WAT.

# general calendar

The SDE21/22 General Calendar contains all the activities relating to the assembly period, the testing & monitoring/simulation experiment, the Competition weeks, and the disassembly period.

#### TABLE 1. COLOURS ACCORDING TO THE DIFFERENT PERIODS IN THE GENERAL CALENDAR

Assembly / Disassembly Period		
Testing & monitoring/simulation experiment	pre-monitoring operation	
	monitoring/simulation experiment	
Contest Period	monitoring days (HDUs closed)	
	days when HDUs are open to public	

### **Teams Welcome and Registration**

The first day (May 19<sup>th</sup>) starts with the registration of Teams on the 'Laurentiusplatz' in the city centre of Wuppertal. Afterwards, there will be a Decathletes' parade, where the Teams will walk through Wuppertal's city centre to the Solar Campus. This will be followed by the Ground-breaking Ceremony on the Solar Campus.

In the early afternoon, there will be a Health & Safety lecture and training. A second H&S lecture and training session will be offered at the beginning of the second assembly week, on Friday 27.05.2022. Team members who could not attend one of the two appointments before entering the construction site must be informed of the contents by the Team's H&S coordinators.

## **Assembly Period**

The assembly period will last two weeks (May 20<sup>th</sup> – June 3<sup>rd</sup>). The opening hours of the site during the assembly period will be 7:00 - 23:00 hr. On May 20<sup>th</sup>, assembly begins at 10:00 hr. All Teams with buildings that pass the final inspection until June 3<sup>rd</sup> will receive bonus points (Rule 2.7).

### Testing & monitoring/simulation experiment

During the three days of pre-monitoring operation (June 4<sup>th</sup> - June 6<sup>th</sup>), the Organisers have the opportunity to test all monitoring equipment and HDU functioning. There shall be no Team work during this period. During the testing days, all HDUs are tempered to an identical temperature by external heaters. At the end of this period, all air-tightness tests will be completed.

The monitoring/simulation experiment, which is described in the Rules as task 'performance gap', will take place from June 7<sup>th</sup> to June 9<sup>th</sup>.

### **Contest Period**

The Contest period will take place from June 10<sup>th</sup> to June 26<sup>th</sup>, starting with the Opening Ceremony and followed by VIP visits. The opening of the Solar Campus for the Decathletes will be at 8:00 hr. The Competition days during which the monitoring and most tasks and Competition activities take place are from June 13<sup>th</sup> to June 22<sup>nd</sup>.

Note: All detailed information regarding activities during the Competition Weeks are provided in the daily schedules.

During the Contest period, the Solar Campus is closed for visitors on Mondays:

- Monday, June 13th
- Monday, June 20<sup>th</sup>

#### Monitoring

To provide a few consecutive days during which monitoring of comfort is unaffected by public circulation, the House Demonstration Units (HDU) will remain closed to the public during specific periods. The days with house tours will be:

- Friday, June  $10^{\rm th}$  Sunday, June  $12^{\rm th}$
- Thursday, June  $16^{th}$  Sunday, June  $19^{th}$
- Wednesday, June 22<sup>nd</sup> Sunday, June 26<sup>th</sup>

The monitoring for the contests in Energy Performance (Rule 17), Comfort (Rule 21) and House Functioning (Rule 22) will start on June 13<sup>th</sup> at 8:00 hr and will end on June 22<sup>nd</sup> at 12:00 hr.

During public visits, the monitoring for the following sub-contests will be paused:

• in the Comfort contest: temperature, humidity, air quality, lighting

The monitoring for the following sub-contests will continue during public days:

- in the Energy Performance contest: PV system performance, energy consumption, energy balance, self-consumption
- in the House Functioning contest: refrigeration, freezing, water balance

#### **Award Ceremonies**

All Award Ceremonies are opened with lectures and are followed by a one-hour get-together for Decathletes, Jury, SDE21/22 Organisation (SDE21/22 Organisers & the Energy Endeavour Foundation), and VIP. The Final Award Ceremony will take place on June 24<sup>th</sup>.

#### **Out of Competition Awards**

In addition to the ten Contest Awards, extra awards will be granted to Teams during the SDE21/22, the so-called Out of Competition Awards (OOC Awards).

#### The following OOC Awards are planned:

- 12th June 2022: Mirke Choice Award
- 17<sup>th</sup> June 2022: Indoor Air Quality Award
- 17<sup>th</sup> June 2022: Solar Award
- +  $18^{th}$  June 2022: Building for Future Award
- 19th June 2022: Timber Construction Award
- +  $22^{nd}$  June 2022: Green BIM Award
- 23<sup>rd</sup> June 2022: Applied Mobility Sciences Award
- 23<sup>rd</sup> June 2022: German Sustainable Housing Award
- +  $25^{\text{th}}$  June 2022: Human Centered Interior Architecture Award
- 25th June 2022: Sustainable Architectural Lighting Award
- 26<sup>th</sup> June 2022: People's Choice Award

These awards have no influence on the actual Solar Decathlon Competition. They are special prizes offered by associations and professional groups. It's an extra opportunity for Teams to prove themselves in further categories. The hosts decide on which criteria they will award the prizes.

Note: Details on the prizes (hosts, criteria) will be announced in due time.

### **Disassembly period**

The disassembly period will last one week (June 27<sup>th</sup> – July 3<sup>rd</sup>). The HDUs will be removed during this period. The HDUs intended for the Living Lab NRW will be prepared for further use.

# tasks & tests calendar

The Tasks & Tests Calendar gives an overview of when and how often tests and tasks occur during the SDE21/22. The activities are sorted by Contest and order of appearance in the SDE21/22 Rules.

The Teams complete the tasks under the supervision of an Observer, present on all Competition days per HDU. The SDE21/22 Organisers and service providers do the tests in cooperation with the Teams.

# team coordination calendar

The team coordination calendar shows on which day and at what time which team is due for specific tasks, tests or jury tours. The following categories are included:

#### Tests:

• • sde<sup>21»22</sup>

- Air tightness test
- Sound insulation test

#### Tasks:

• Food retrieval

#### Jury-Tours:

- Communication, Education & Social Awareness
- Affordability & Viability
- Engineering & Construction
- Sustainability
- Urban Mobility
- Architecture

Note: The time slots 'Welcome Meeting', 'Interview', 'Final Decision' and 'Justifications + Reports' are internal Jury processes and are for information only, but are not to be considered for the Teams' time planning. The half-hour slots per Team are divided in such a way that the Teams can convince the Juries of their concept in the first 20 minutes. In the remaining 10 minutes, the Juries are alone in the HDUs.

#### **OOC-Jury-Tours:**

- Indoor Air Quality
- Building for Future
- Solar
- Timber Construction
- German Sustainable Housing
- Human Sustainable Housing
- Sustainable Architectural Lighting

Note: There are no fixed procedures for the OOC Jury tours. The Team Coordination Calendar indicates when the OOC Juries plan to participate in the regular House Tours.

Not all OOC Juries will go through all HDUs, as they have often previously defined a shortlist based on Deliverable #6.

# detailed daily schedules

This calendar contains the exact daily schedule of the SDE21/22 to the nearest half hour.

Note: Especially the exact times are still subject to change.

### All-day activities

On top of the calendar, there is a column in which general all-day events are entered. A more detailed temporal classification is not necessary in this column.

#### EXAMPLE:

All-day activity: Country and Culture Day Turkey

### Activities chart

The activities chart indicates which activity (subdivided into category, name and sub name) and which activity type it is. These types can be, for example, tasks, tests, monitoring, jury visits, awards or time schedules. In addition, the 'rule' column indicates which part of the rules is based on the activity in the calendar.

The next columns contain the scoring points for each contest, the total period (in hours) of monitoring or the total times allocated for task, the daily period (in hours) or tasks of the contest and points that could be obtained on that particular day.

The continued measuring periods are indicated in hours according to the monitoring program designed by the SDE21/22 Organisation. Contests by task are scheduled in the calendar by the numbers of times they will be held.

#### EXAMPLE:

					points	tasks	tasks	points
category	name	sub name	type	rule	max	total	day	day
Competition	3   Energy Performance	energy consumption	monitoring	17	30	220	12	1,64

Note: The number of tasks per day can be less than one in the calendar if only a proportion of all Teams have to complete the task on that day. The daily schedules for the assembly and disassembly periods are simplified compared to the other days.

### Timetable

The columns behind the activities chart indicate the 24 hours of the day. There, the time periods of the activities can be rounded up or down to the nearest half hour. Grey cells indicate when the SDE21/22 Solar Campus is closed.

#### EXAMPLE:

00:0	1:00	2:00	3:00	4:00	5:00	6:00	7:00	8:00	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00	17:00	18:00	19:00	20:00	21:00	22:00	23:00

In the timetable, the different time periods of the activities are indicated by coloured cells. These are defined as follows:

Monitoring

This indicates the periods when the monitoring is included in the scoring.

Monitoring test + thermal conditioning This indicates the periods when the monitoring equipment is tested by the SDE21/22 Organisation.

Team activities / Tasks

This specifies the time periods when the Teams have to perform activities or tasks.

Organiser activities

This indicates the periods when the SDE21/22 Organisation run activities, such as tests.

#### Jury activities

This indicates the periods when jury activities take place.

#### General

This indicates the time periods that involve several of the above actors and are of general interest.

### **Total points**

In the lower part of the daily calendars in the Competition period, it is indicated how many of the 1 000 total points can be achieved on each day. In addition, the cumulative number of points indicates the maximum number of points that could have been achieved to date.

#### EXAMPLE:

Total points

1000

23,16 daily total 109,20 cumulated total
